TÜBA-AR (Turkish Academy of Sciences, Journal of Archaeology) is an international periodical that is published annually by Turkish Academy of Sciences. The Editorial Board appointed by the TÜBA Academy Council makes the decisions as to the publication policy, extent and content of the journal (Turkish Academy of Sciences - TÜBA).

TÜBA-AR has been included within the scope of scientific journal review of Art & Humanities Citation Index - AHCI since October 2007.

SCOPE OF THE JOURNAL

The journal TÜBA-AR principally involves new research, comment, evaluation and methods conducted in the field of archaeology and in archaeology-related fields without any periodic and geographic area restriction. The journal includes newly conducted studies in the field of archaeology, but as a science academy house organ, it is also open to new comments, approaches and analyses in the areas of expertise like cultural heritage management, protection, nature, science and other fields of social science as long as these areas are related to the archaeology.

Excavational working paper-like reports which only offer a material advertisement or lack of new comments and initiatives about excavation and surface research lie beyond the scope of the journal. However, unique findings that break new ground in terms of cultural history can be accepted to the journal as "news."

EDITORIAL PRINCIPLES

The manuscripts may be in Turkish, English, German or French; for Turkish manuscripts an English summary must be added and for the manuscripts that are written in other languages, both a Turkish and an English summary must be provided. The official subtitles must certainly be written in two different languages, one of which is to be Turkish. The keywords and summaries for English and Turkish manuscripts must be offered in Turkish and English; the manuscripts written in other languages must be provided in Turkish and English, as well, apart from the source language of the manuscripts.

The authors are assumed to acknowledge that the manuscripts they write for the journal are authentic and have never been published previously even in another language or have not been submitted for publication elsewhere.

TÜBA-AR is a refereed journal. The editorial board expresses an opinion about the preliminary acceptance of the manuscripts and hand it over to the referees. The manuscripts are referred to at least two referees. The suggestions, criticism and corrections made by the referees are redirected to the authors provided that the referees' names remain anonymous; the authors are obliged to take referees' consult. In case the authors are insistent upon their own manuscripts, the editorial board re-evaluates them.

In accordance with the referees' opinions, the manuscripts cleared for publication by the editorial board are reviewed for their format, spelling rules, references and visual materials; the final assessment is conducted by the editorial coordinator provided there is no crucial defect.
